

THE MISSOURI VOTE IN DOUBT

REPUBLICAN JUDICIAL CANDIDATE MAY HAVE MAJORITY.

Both Branches of Legislature Are Democratic and Will Send James A. Reed to Senate.

St. Louis, Nov. 10.—Interest in the Missouri election centers in the fate of the state ticket. Returns received here indicate a probability of the defeat of Judge Gantt, Democratic candidate for the supreme court for the long term, by John C. Brown, his Republican opponent.

John Kennish, Republican candidate for the short term for the supreme court, is conceded to have even a better chance against his opponent, H. C. Timmonds, than has Brown.

Definite returns will not be in for a day or two. Brown is leading Gantt in St. Louis by 25,000. Kennish has a lead of 2,000 more than that over Timmonds.

The question that is agitating both headquarters is, Will Gantt and Timmonds overcome that vote in the country?

Bryan came to St. Louis with less than 14,000 lead two years ago. It was wiped out with a few hundred to spare. Obviously, the supreme court candidates must come to St. Louis with better than 10,000 more lead than Bryan had.

Neither Democratic nor Republican state headquarters have any figures upon which to base an answer to that question.

The legislature is Democratic in both houses by something like the old-time majority.

At least 12 and probably 13 congressmen are Democratic.

James A. Reed has been endorsed for United States senator.

John C. McKinley will get the complimentary vote on the Republican side.

All Missouri Amendments Lost.

St. Louis, Nov. 10.—The tremendous wet majority in St. Louis has apparently dragged all other amendments to defeat.

MAY ALSO LOSE THE SENATE

Even Republican Control of the Upper House Has Been Placed in Jeopardy.

The Senate.
Republican certain..... 45
Democrats certain..... 41
In doubt..... 6

Total membership..... 92
Majority, 47.

The House.
Democrats..... 216
Republicans..... 158
Socialist..... 1
Districts missing or in doubt..... 16

Total..... 391
Gain by Democrats, 53.
Gain by Republicans, 5.
Net gain by Democrats, 48.

Washington, Nov. 10.—The possible overturning of the Republican majority in the senate is the big surprise of the later election returns.

It looks now as if the Republicans would retain a small majority in the upper house. But the narrowness of the margin is a tremendous shock to the party leaders. With six states in doubt, the Republicans must get at least one of them or lose control. The Democrats have forty-one members certain and the Republicans forty-five. And only forty-seven votes make a majority. In the event of a tie vote, Vice President Sherman would cast the deciding vote.

They Plotted Against the Mikado.
Tokio, Nov. 10.—Twenty-six persons were found guilty on the ground that they were plotters against the life of the Mikado. The court recommends "The severest penalty under clause 73" which provides capital punishment for plotters against the imperial family.

Montana is Republican.
Helena, Mont., Nov. 10.—Returns from all sections of the state though still incomplete apparently remove all doubt that the Republicans have made a clean sweep of the state and congressional offices and also assure the re-election of Thomas Carter to the United States senate.

Tener's Plurality 35,000.
Philadelphia, Nov. 10.—Indications are that J. K. Tener is elected by 35,000 plurality over Berry. Keystone party candidate for governor, Webster Grim, Democrat has figured in the contest only to the extent of detaching from Tener's majority.

Electing a Waif Governor.
Nashville, Tenn., Nov. 10.—Ben W. Hooper, the newly elected governor of Tennessee, was found, a waif, on the streets of Knoxville 40 years ago. His parentage was not known and he was sent to an orphanage, where he received his early training.

Nothing to Say—Taft.
Washington, Nov. 10.—President Taft has reached here from Cincinnati, where he voted. He went directly to the White House. It was announced he had no statement to make regarding Tuesday's election.

Phenomenal Growth of Los Angeles.
Washington, Nov. 10.—According to official census report the population of Los Angeles is 319,198, as compared with 102,479 in 1900 and 50,295 in 1890, this increase from 1900 to 1910 is shown to be 216,719 or 211.5 per cent.

GOV. STUBBS STILL LEADS IN KANSAS

His Estimated Plurality is Placed at 10,000.

BALANCE OF TICKET 25,000

The Political Complexion of the Legislature Can Not Be Determined and Result is Close.

Topeka, Nov. 10.—W. R. Stubbs has been re-elected governor of Kansas, but by a greatly reduced plurality over George H. Hodges, the Democratic candidate. Reports have been received from 93 of the 103 counties of the state and these show a probable plurality for the governor of 10,000 votes. The entire state Republican ticket won by 25,000. These reports are the unofficial returns and estimates based on partial counts received at Republican and Democratic headquarters from the county chairman and the newspapers.

Both Republican and Democratic headquarters were closed and the officials and workers went home to catch up on the sleep they had lost by the all night and all day work. As J. N. Dolley left Republican headquarters he said:

"Stubbs is elected by from 10,000 to 12,000. It will not go below the former figures. The house of representatives looks Democratic by a very small majority and complete returns may change this."

Henderson Martin, chairman of the Democratic committee, said he did not concede the election of Gov. Stubbs. It is too close yet really to determine the result. It probably will take the official count to settle who is to be the next governor. The house of representatives is Democratic by a good working majority.

The Kansas house of representatives may be Republican, but by a very small majority. Reports have been received from 99 of the 125 representative districts. Of these 50 are Republicans and 48 Democrats, one doubtful, but probably Republican. There are 26 districts yet to be heard from. Most of the counties which are missing on representatives were carried by Stubbs and it is believed that of the 26 districts yet to report the Republicans should elect at least 20 of the representatives, which would give them a majority of four in the house. In many counties that Stubbs carried Democratic representatives were elected and in Hodges' counties Republicans were elected. If the political preferences of the counties remain the same on representative as two years ago the Republicans will have 68 members in the next house.

ALDRICH WINS IN NEBRASKA

Later Returns Overcame the Lead of Dahlgren—Hitchcock for the Senate.

Lincoln, Neb., Nov. 10.—State Chairman Huesetter of the Republican committee claimed the state for Aldrich, Republican, for governor, by 25,000. The country precincts have overcome Dahlgren's lead in Douglas county and additional returns from nearly a third of the state point to a landslide to Aldrich. United States Senator.

CHESTER H. ALDRICH.

tor Burkett, Republican, candidate for re-election, does not dispute that Congressman Hitchcock, Democrat, has won the senatorial endorsement. Congressman Maguire, Democrat, on virtually complete returns, claims his re-election in the First district over Hayward, secretary of the Republican national committee, by at least 500. Lobeck, Democrat, Latta, Democrat, Sloan, Republican, Norris, Republican, and Kinkade, Republican are elected to congress. William J. Bryan's bolt of Dahlgren, the Democratic gubernatorial nominee on the liquor issue, probably elected Aldrich.

The Suffragettes Rejoice.

New York, Nov. 10.—The victory of the suffragettes in Washington, when the state adopted by a vote of two to one the constitutional amendment giving women full suffrage will be celebrated by a monster meeting at Cooper Union to-night. Women can now vote in five states, the other four being Colorado, Wyoming, Idaho and Utah.

Missouri State Corn Show.

The Eighth Annual Missouri State Corn Show will be held during Farmers' Week at the Agriculture College, University of Missouri, Columbia, January 10-13, 1911. Everything is being done to make this the largest and best show ever held by the Missouri Corn Growers' Association and should receive the support of every corn grower in the state.

Among the new features this year is the division of the state into five sections with complete premium list in each section. Except in the Open to the State Classes no one will be permitted to compete for prizes except those offered in the section in which he lives. This relieves the necessity of farmers living in certain parts of the state having to compete with those of the more favored corn districts. It will provide for a wider distribution of premiums than heretofore and should add considerable interest to the show. There are also three classes open to the state, two which are for twenty year samples—yellow and white corn with a \$130 manure spreader in each, offered by the International Harvester Company. The total number of premiums offered is two hundred and seventy-four which totals in value \$2,175 the largest and best premium list ever offered at the corn show in Missouri.

Each sample of corn will be scored by an expert corn judge from the Agriculture College and the score sent to the exhibitor. All corn remains the property of the exhibitor. Everything is being done to make the show educational in the highest degree. Can we not expect your help?

Farmers' Week at the Agricultural College, at which time the State Corn Show is held, is the greatest gathering of the farmer held in Missouri each year. It is

a combined school and conference for farmers held under the auspices of the State Board of Agriculture and the Agricultural College. At this time eleven leading agricultural and live stock associations of the state hold their annual meeting. Every Missouri farmer whether a member of any of these associations or not is cordially invited to attend.

This year the College of Agriculture will give the second annual short course in Corn Judging, Farm Management, Dairy Husbandry, Horticulture and Veterinary Science during Farmers' Week. Last year 606 farmers were enrolled in this short course. These courses will be given from nine in the morning until three in the afternoon. Instructors in the College of Agriculture will, by demonstrations and actual experiments in the laboratories and class rooms of the College, give practical and definite, information of modern agricultural practices. The evenings will be devoted to discussions of various farm problems by the nations leading authorities in agriculture. The University extends to all a cordial invitation to attend Farmers' Week and enjoy these good things.

Every one who is interested in better corn is requested to write for a premium list of the State Corn Show which contains all rules and regulations concerning the show. If requested, corn score cards and a circular on the Selection of Corn for Show will be sent.

For further information concerning the show, address, C. B. Hutchison.

H. F. Blackwell is spending the day in Kansas City on legal business.

Be Fair to Your Property

GIVE it every possible chance to last long and to look its best. If you build well—paint well.

If it is important to carefully select the building materials for your house—it is just as important to use all care in getting the paint that will protect those materials.

Southern

Pure White Lead ("Dutch Boy Painter" trade-mark) is the standard house paint. Pure white lead earned that term, "standard" because it proved itself the greatest known protector of wood against weather, and because as an ornamental paint it proved to give the smoothest finish. That is why good painters like to use it. The painter mixes it with pure linseed oil at the time of painting and makes any color, shade or tint you want.

The house that is "white-leaded" is the house that's painted right.

Ask for our "Dutch Boy Painter" Adviser No. 1. Sent cheerfully upon request.
